## SOCIAL AND PERSONAL

At a meeting of the freshmen class held last night, the following officers were elected to serve during the 1916-17 term: Balte Ulrich, president; Nellie Nagel, vice president; Ines Crow, secretary-treasurer; Walter Willis, committeeman at large; Lowell Ruge, track manager; Harold Holdman, basketball manager; Esther Earl, girls' basketball manager; and Devern Livermore and Bob Humphrey, tied for football manager. This is the second class to organize, the senior class having held an election earlier in the week. The senior class officers elected were: Tom Murphy, president; Lucille Haer, vice president; Thelma Thompson, secretary-treasurer; and Hazel Strain, committeeman at large. The other classes are expected to organize in the near future.

The class in public speaking met last night in the library room and made ready for the term's work. It was decided to hold a meeting every Wednesday and Thursday nights in a room adjoining the public library. The class is meeting in the evening on account of the conflicts with other classes which would make it extremely difficult to have the recitation during the day time, and as some of the students thought that they could take the study on Monday and Thursday evening. Public speaking and debate will be studied and if two debating teams can be organized they will be entered in the Oregon debates.

Miss Della Sundell, sister of Mrs. Fred Bloch, has left for Detroit, where she is to be wedded on Monday to Mr. Ray Emerson of that city.

The school board and teachers of the public schools will be the honor guests at a banquet this evening for which the ladies of the Presbyterian church will be hostesses. A musical program is being arranged for the event.

Mrs. H. H. Hubbell and daughter Helen, and Mrs. Hubbell's mother, left yesterday for a two week visit in Portland. They accompanied Mrs. Hubbell's sister, Mrs. C. V. Bailey and her husband and baby who were guests of Mrs. Hubbell during the Round-Up. The trip was made in the Bailey car.

Word has been received that Miss Edna Cotts, who is attending the University of Idaho, has affiliated with Delta Gamma, a national woman's fraternity.

F. A. Potter of Nolin is a Pendleton visitor today.

Art Grover of Helix, has been visiting in the city today.

W. F. Shull of Pilot Rock, is a guest of the Bowman today.

H. Dean of Ione, Morrow county, was a Pendleton visitor yesterday.

R. M. Rogers of Echo is among the visitors from the west end of the county.

R. B. Wood, chief special agent of the O.W. R. & N., is a Pendleton visitor.

E. L. Hoppel, traveling agent for the N. P., is making Pendleton a visit today.

Robert Simpson, manager of the Round-Up City Auto Co., left last night for Portland on a business trip.

Lloyd and Harold Wisler have returned from La Grande where they attended the funeral of their cousin, Miss Edna Breakridge.

Is "Just Right"

Are often backward, because they are handicapped by some defect of vision—the child having difficulty in seeing the blackboard experiences embarrassment, and often headaches and aching eyes. Eye defects that handicap children are so common that no child should be sent to school without first having an examination by an experienced optician. Children that are brought here to be examined are never fitted with glasses unless they need them. My methods are especially adapted to fitting the eyes of children as the results do not depend on answers to questions.

## BRAINS and MOTORS AND THE HUDSON SUPER-SIX

Let us put the matter this way:

A man with brains does better work than the man without them. No matter what the work is. Even for drudgery you prefer a man with brains. So with the motor in your car. No matter what the task it. No matter if the speed and power are utilized or not. The motor which excels all others will always serve you best.

### 80% MORE EFFICIENT

The Super-Six invention has added 80 per cent to this motor's efficiency.

We prove that by official tests—for speed, for endurance, for hill-climbing and for quick acceleration. In all these respects the Super-Six outperforms any other stock car built.

### NO ADDED COST

Mark first that the Super-Six means no added cost. No car of the Hudson grade sells any lower. Few sell as low as this.

The extra power is attained without adding cylinders or by adding size. Dozens of cars have like-size motors in them.

The Super-Six, on the contrary, yields important economies. It apparently

doubles a motor's endurance. Its over-capacity avoids countless strains. And all this extra power comes through lessening vibration. It results from reducing friction pretty near to nil.

So the Super-Six motor, despite all its supremacy costs you less than to go without it.

### IT MEANS TO YOU THIS

It means a car which can pass any other—on hills or on levels—whenever you wish. It means a car to out-distance others without going faster. That because of quick get-away whenever you slow down.

With its 76-horsepower you rarely need to change gears, either for hills or for traffic.

### WITHIN 10% OF PERFECT

The Super-Six has removed four-fifths of the friction in former motors. It comes within 10 per cent of an utterly frictionless motor. So a better motor is improbable. The Super-Six will retain its supremacy.

17,000 of these cars are now running.

In beauty, quality and luxury, this car attains what seems to be the limit. Styles may change in a minor way. But we see no way to ever build a finer car.

A lesser car will mean years of regret. The Super-Six will mean, we think, supremacy so long as the car exists.
